

EXPERIMENT NO :- 6

Aim:- Write a Java script to prompt for users name and display it on the screen.

Code :-

```
<html>
<head>
<title>JavaScript Prompt Box</title>
  <script>
    function fun() {
      var a = prompt("Enter some text", "Input Value");
      if (a != null) {
        document.getElementById("para").innerHTML = " " + a;
      }
    }
  </script>
</head>
<body style = "text-align: center; ">
  <button onclick = "fun()">Click Here
</button>
  <p id = "para"></p>
</body>
</html>
```

Output :-

Click Here

This page says

Enter some text

input value

OK

Cancel
